

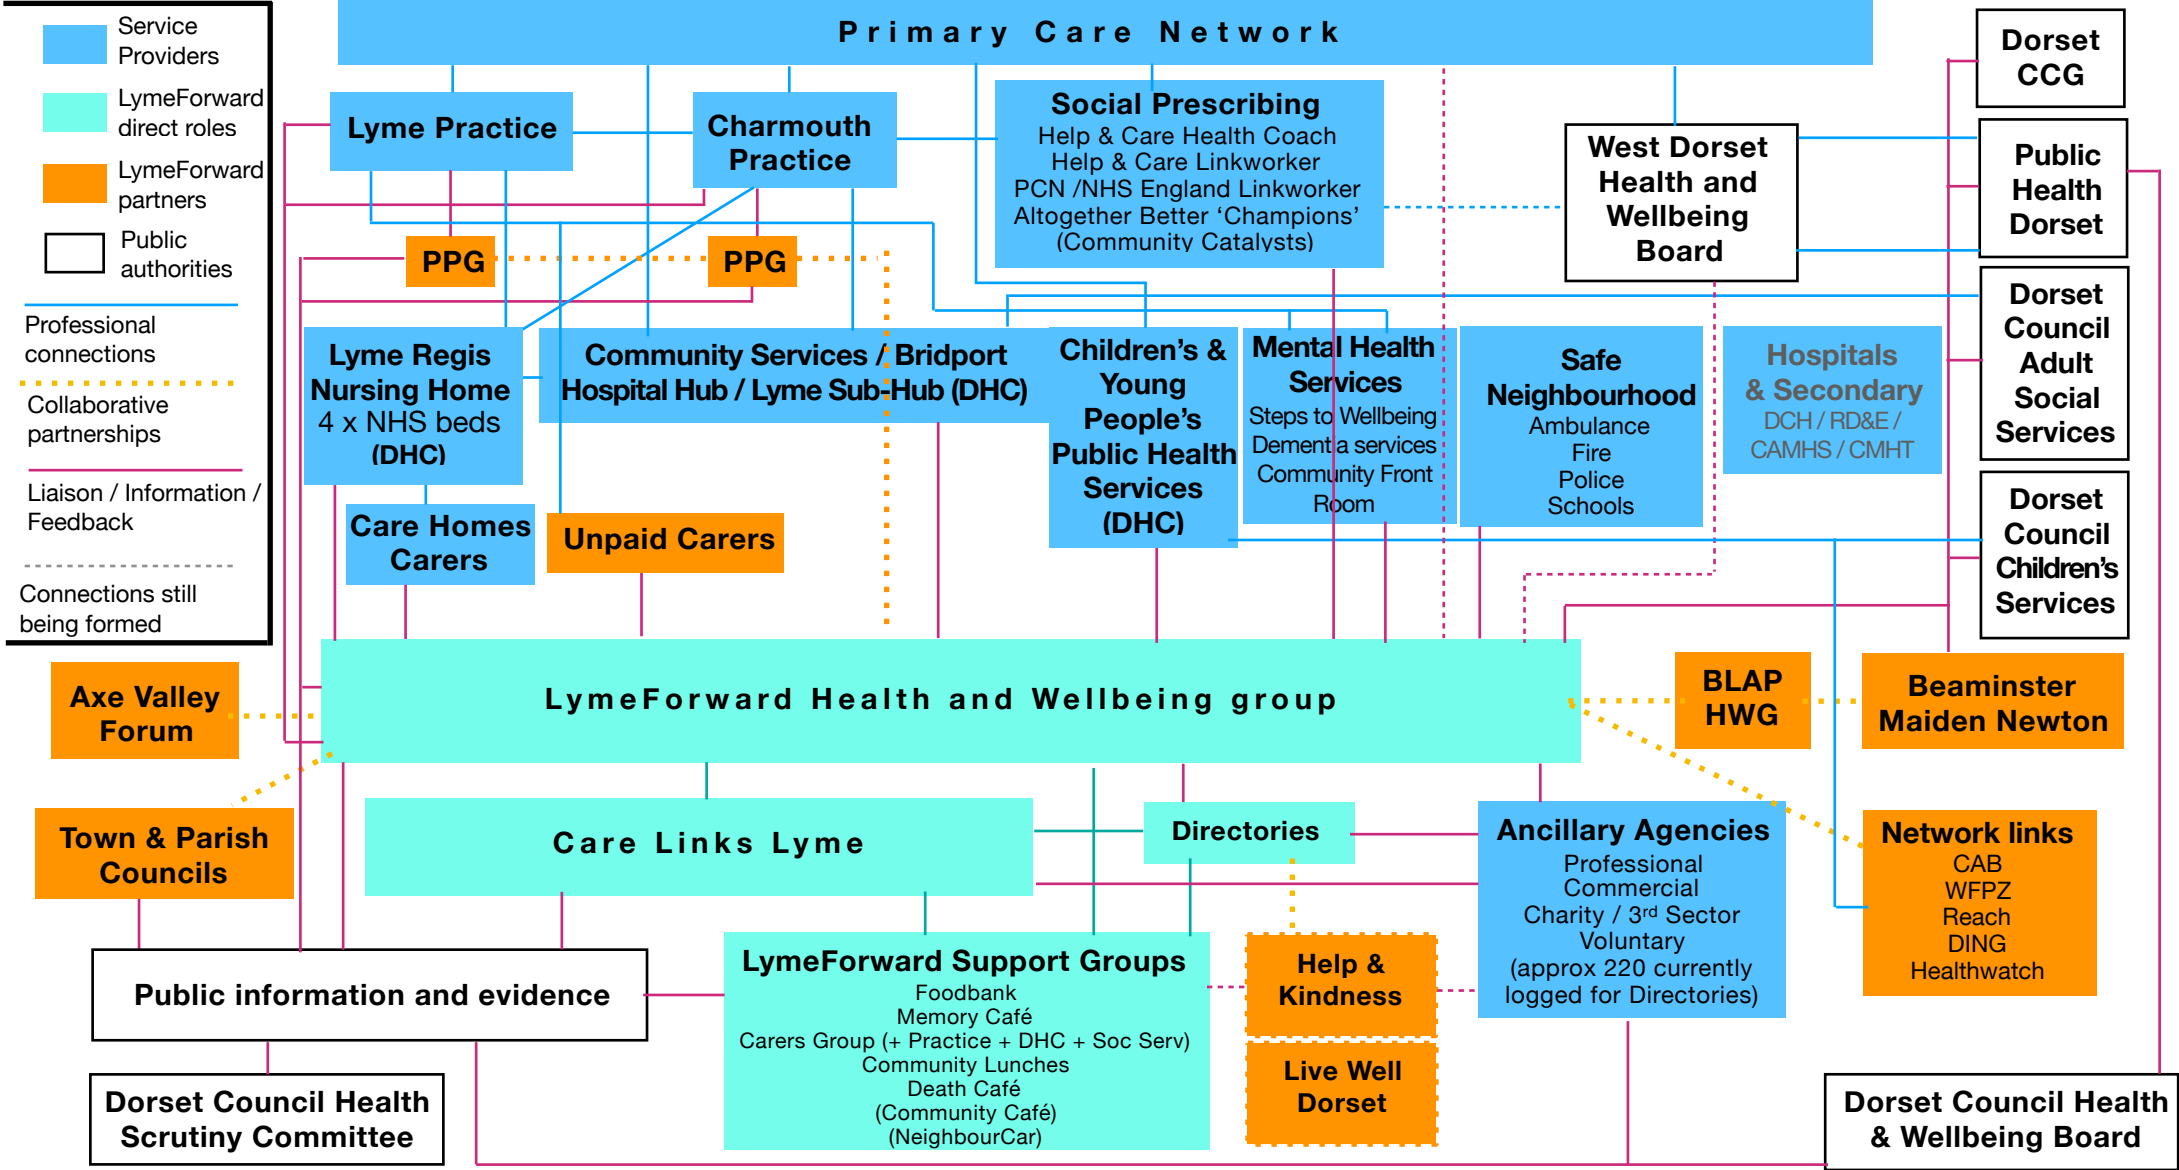

DIAGRAM 3: LymeForward – Health and Wellbeing

Functions / objectives

1. Represent patients & residents with external bodies & partners to achieve:
 - effective implementation & improved services from: (a) the merged Lyme GP Practices, (b) community services, (c) Social Prescribing
 - resident / patient engagement & feedback from PPG to Network level
 - equitable provision by commissioners & providers for residents' health & care needs, plus greater inter-operability with Devon services
2. Develop 'Care Links Lyme' alongside Social Prescribing to achieve:
 - better public understanding of, and access to, non-clinical services
 - completion and distribution (including web-based) of initial directories of locally-available services
 - effective implementation of Social Prescribing by monitoring, assisting and challenging where necessary
3. Sustain and develop LymeForward-led volunteer groups to achieve:
 - continuing services from Foodbank, Community Lunches, Memory Café
 - development of Community Café, Carers Group and NeighbourCar services
 - more volunteers and greater collective self-reliance to build sustainability of these groups
